

MediSync +

Orchestrator-based Multi-agent System

"Seamless Detection, Zero Readmission"

Continuous

Symptom Detection

Real-time

Risk Alerts

AI

Smart Monitoring

THE PROBLEM

Hospital Discharge

Symptoms Untracked

- No monitoring
- No early warning

Re-admission

OUR SOLUTION

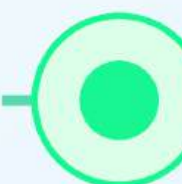

Hospital Discharge

Symptoms Tracked

- Timely Risk Alert
- Immediate treatment

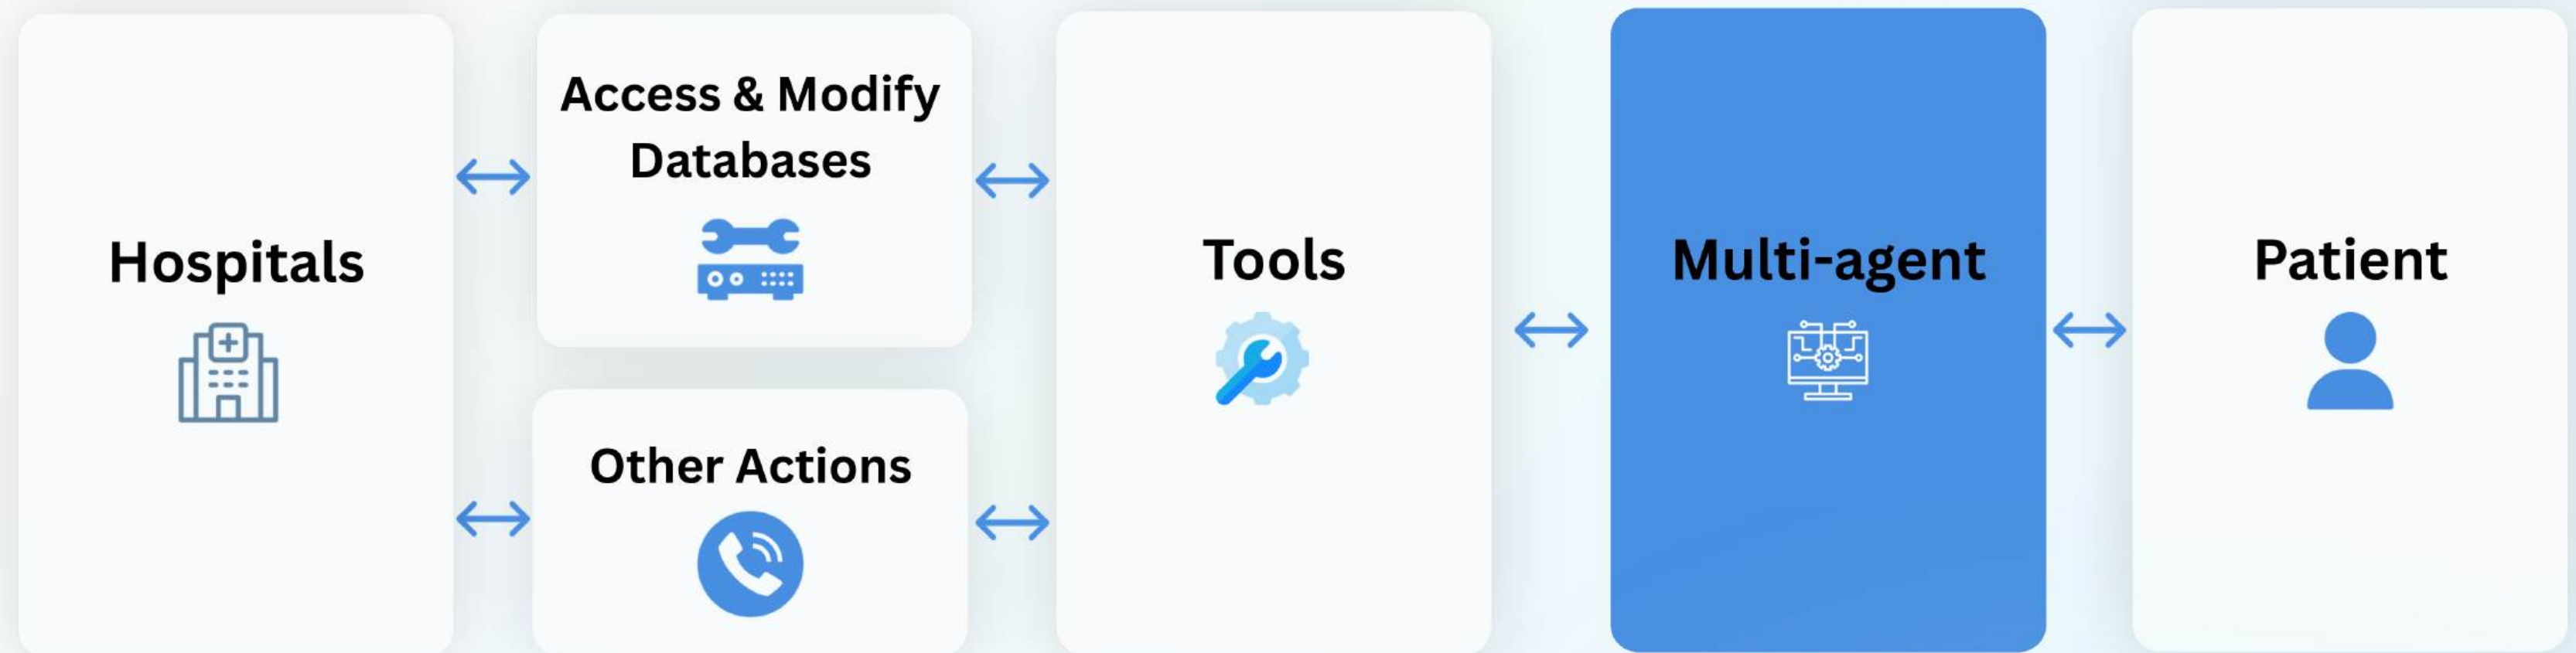

Recovery

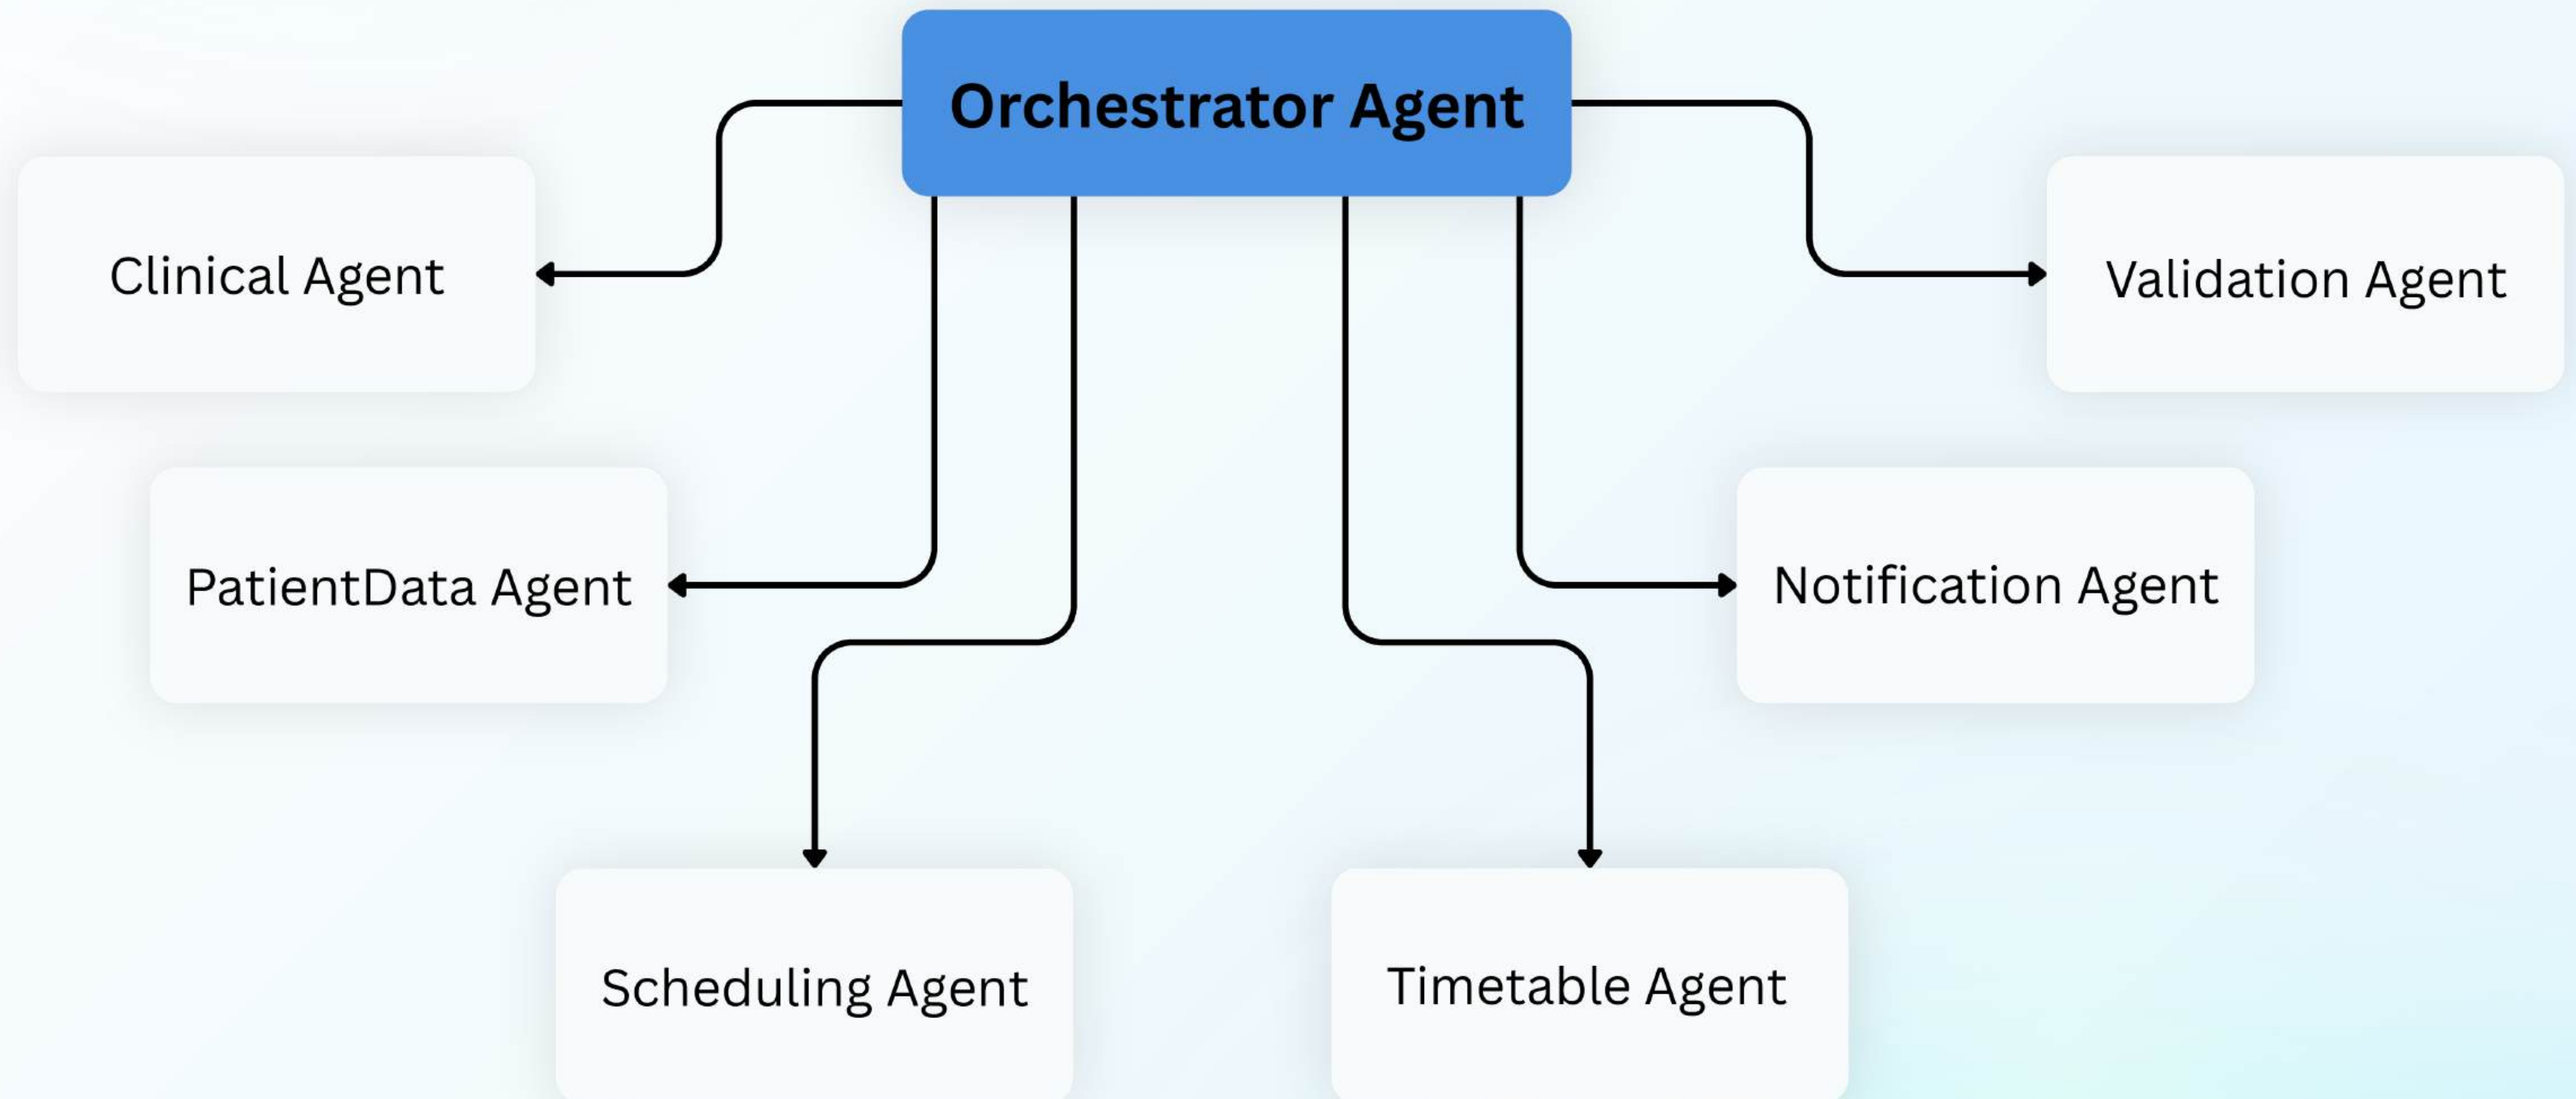

Post-Discharge **Risk Detection** Workflow

How it Works: Simplified Architecture

Architecture: Agents Involved

Live Demo

How to **Implement MediSync+?**

Setup

Registered hospital will get hospital ID + API key. Data space are private & secure

Staff Access

Medical staffs view AI alerts and updates via dashboard. Access is limited to their hospital only

Continuos Monitoring

Via MediSync+ Features

System Integration

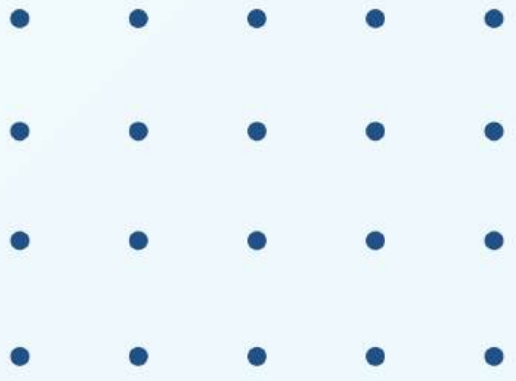

Connect to existing EMR system to sync patient care plans and records

Patient Onboarding

Patient scans code upon discharge to get connected to the hospital MediSync+ system via APP

CONTRIBUTION TO SDG
